

# Minimize your patients' **PRESSURE ULCER RISK.**

Prevalon® Turn and Position System effectively offloads the sacrum to help prevent sacral pressure ulcers, and reduces staff injury risk due to turning patients.

Prevalon® Pressure-Relieving Heel Protector completely offloads the heel, and maintains grip of the limb to stay properly positioned on the foot during patient movement.

Comfort Shield® Barrier Cream Cloths provide one-step incontinence care and are proven to reduce Incontinence-Associated Dermatitis (IAD).
