

The Benefits of Sage 2% Chlorhexidine Gluconate Cloths

for Patient Preoperative Skin Preparation

Unique CHG Formula

- ▶ Fast-acting and broad-spectrum
- ▶ Extremely persistent (active up to 6 hours)
- ▶ Effective against the most prevalent SSI-causing pathogens (MRSA, VRE and many more)
- ▶ No alcohol or harsh detergents (no flammability; reduced potential to dry skin)
- ▶ Rinse-free and quick-drying

Large Skin-Friendly Cloths

- ▶ Easier prep in one step
- ▶ Delivers uniform dose of CHG (contains 500mg per cloth)
- ▶ Removes debris and organic matter
- ▶ No drips, spills, runs or pooling
- ▶ Latex-free

Always Use Sage
2% Chlorhexidine Gluconate Cloths
